

# Team Neutrino

## Cow Town Throw Down

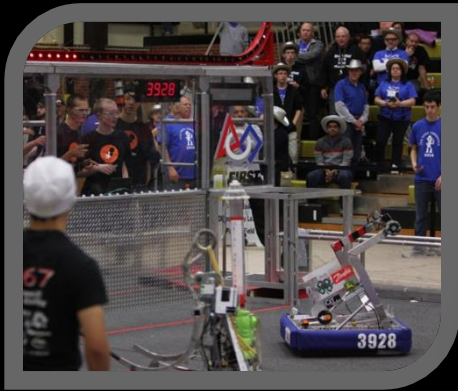

### Qualification Rounds

We arrived in Kansas City on Friday afternoon so we could load and compete in practice and qualification matches.

### Scouting

New members had the opportunity to pit scout and match scout. Most of them loved it! It was great to watch all the robots perform!

### Iowa Represent

Iowa FRC teams 525, 967, and 4646 were also in attendance. All four of our teams made it to elimination rounds! Go Iowa!

### Alliance Selection

Team Neutrino ended up being chosen by team 16 to be on the 8<sup>th</sup> alliance. It was great to work with teams 16, 2346 and 1802!

### Neutrino Alumni @CTTD!

Special thank-you to former mentors Corey Brown and Aren Hill and former member David Runneals for coming to CTTD this year and cheering on Team Neutrino!

### Elimination Rounds

During quarterfinals, we beat the 1<sup>st</sup> seed after only two matches! During semifinals, we forced a tiebreaker match. Despite technical difficulties, we still managed to do well.
