

Team Neutrino

December

AMS FLL Scrimmage

This year, we once again volunteered at Ames Middle School's FIRST LEGO League scrimmage. It was great to see all their hard work on their robots and projects! After the scrimmage, we presented to the teams about Team Neutrino and demonstrated our robot.

SCI FLL Regional

Team Neutrino went back to the Science Center to volunteer at their FLL regional. Members from our team were judges, referees, and 4 other positions. Great job to all the FLL teams, and we look forward to seeing some of you at the state championship in January!

Preseason projects

Our team had a few projects before kickoff. We designed a cart for our robot, updated our Flickr page to include all our pictures, worked on the Safety Animation, and took an intro to programming class led by lead mentor, Tony.

Coming Next Month: We will start our 2015 build season!
