

Team Neutrino

Central Illinois Regional

Assembly

We made several changes to our practice robot since bag day, so we had to update our competition robot on Thursday. We also got to practice driving on the field.

Spirit Squad

The team now has a "Spirit Squad" to cheer on the drive team! We're training in younger siblings and family members already and are really looking to improving our team spirit at North Star!

Chairman's Presentation

The Chairman's team presented on Friday afternoon about the team's outreach and growth throughout its existence.

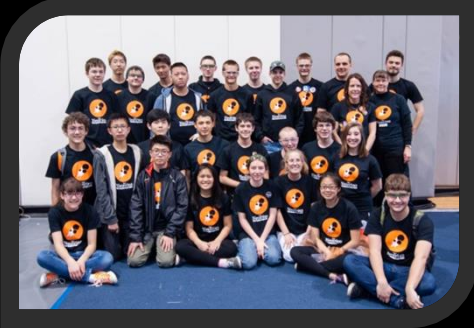

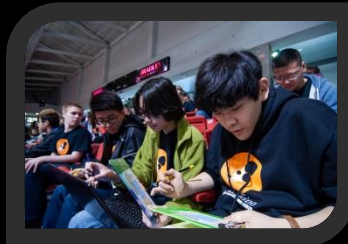

Qualification Rounds

On Friday and Saturday, our team competed in twelve qualification matches. We finished seeded 17th! Great job to the drive team!

Scouting

The scouting team came prepared, having a meeting pre-event to practice scouting. We are going to further improve our new scouting database for North Star!

Alliance Selection & Playoffs

Team Neutrino was the 2nd pick of the 7th seeded alliance. It was great to work with 1736 and 2081 and finish as quarterfinalists!
