

# Team Neutrino

## April

### Eco Fair

Members of our team sold FIRST e-Watt Saver light bulbs at the City of Ames Electric Services' annual Eco Fair, which was during the North Star regional. The Ames community was cheering for us as we competed on Saturday!

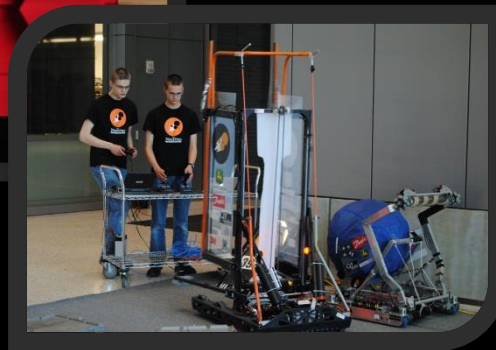

### Edwards Elementary Science Night

Team Neutrino demonstrated our Aerial Assist robot to the Edwards community. Kids got to play catch with the robot and learn about FIRST and FRC.

### World Champs!

Our co-captain, Dagney, went down to St. Louis for her Dean's List Finalist award. She got to hang out with Neutrino alumni all weekend and have lunch with Dean Kamen!!

### Demonstration at ABE Dept.

To thank ISU's Biorenewables Complex for letting us meet there this year, we demonstrated our robots and let them know how we did this year.
