

Team Neutrino

Iowa Regional

Qualification Matches

During the qualification matches at the Iowa regional in Cedar Falls, we ultimately ranked 15th out of 54 teams in attendance. At this very competitive regional our performance was admirable.

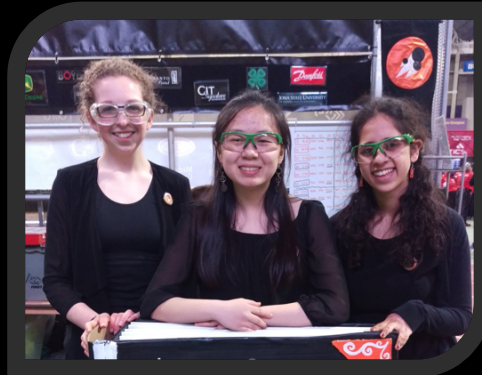

Playoff Matches

We were chosen to be on the 7th seeded alliance in the alliance selection. Our full alliance involved team 2081 Icarus, 3928 Team Neutrino, 2040 DERT. We made it to the quarterfinals where we were eliminated by the 2nd seed.

Chairman's

We once again hosted the Iowa Regional Chairman's Exchange, where 15 of the 21 submitting teams attended! Teams were able to swap stories and give each other feedback.

Awards

At the awards ceremony our own Rucha Kelkar won the Dean's List Finalist award! The Dean's List Award is a prestigious award given to dedicated student leader who exhibits FIRST ideals.
