

Team Neutrino

Iowa Regional

Chairman's

Team Neutrino hosted a Chairman's Exchange at the Iowa Regional. A total of 11 team attended, and three other teams practiced presenting alongside Team Neutrino. It was great to network with others and see the cool things other teams are doing!

Engineering Inspiration

Team Neutrino won the Engineering Inspiration award at the Iowa Regional, which celebrates outstanding success in advancing respect and appreciation for engineering within a team's school and community!

Robot

After three days of scouting, repairing, and driving, we ended up 2nd seed alliance captains and picked alliance partners 525 Swartdogs and 5914 Caldonia Robotics. We finished as finalists.

Scouting

For the very first time, Team Neutrino created ScoutMasters to help with scouting at competitions. During the match, scouts push buttons to record how many cubes a robot collects and how long it takes to deliver them to the scale, switch, and exchange. The ScoutMasters were a huge success!
