

# Team Neutrino

## Week 4

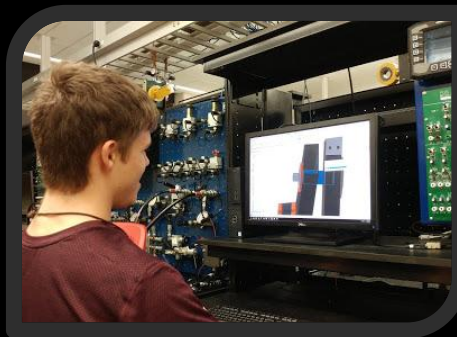

### Design

We are manufacturing the drive train! The field elements for this year's game are almost done. Good job to all those involved in building them!

### CAD

Team Neutrino ordered and received the robot parts and CAD for the robot is nearing completion!

### Programming

The programmers have designed the electronics layout for the robot and also continued testing things like odometry.

### Graphics

Graphics finished making the thank you video for our sponsors. We continued to work on the Chairman's interviews.

### Scouting

The scouts have been working on an app for scouting that could replace the Scoutmasters this season—more details to come next week!

### Chairmans

Work continues on the Chairman's Essay and Executive Summary. We're working to hammer out all the details before the deadline on the 7th!
