

Team Neutrino

Week 5

Manufacturing

This subteam has continued to manufacture some tubing for the robot. They have also been manufacturing sheet metal and Polycarbonate parts.

Design

The design team has put together both the practice and competition drivetrains! They are continuing to put together the cargo mechanism.

Chairmans

The Chairman's subteam has finished and submitted the Chairmans essay and executive summary! The Woodie Flowers essay has also been submitted. Now we are working on getting the presenters ready for competition.

Girls in STEM

This Saturday we sent a group of team members to promote Stem through the Science Center of Iowa's Girls in STEM event to talk to people about FIRST. We set up a booth with circuits and LEGO robots for younger kids to experience!
