

# Team Neutrino

## Week 7

### Scrimmage

Team Neutrino attended this year's Corndog Classic. There, we got to meet other teams, get a feel for how the game will be played, and drive the robot for the first time on a full field!

### Robot Reveal

We revealed our robot, opportunity, to the community. We also shared about our season and showed what the robot can do. Nitzan Friedberg and Sayre Satterwhite were announced as our Dean's List Semifinalists and Mark Duthie was announced as our Woodie Flowers nominee.

### 4-H Gala

Four representatives from our team went to the 4-H Gala in Des Moines on Friday, February 22nd, where they met different sponsors of 4-H. They also had an outreach booth where they presented about our 2018 robot to all the people who came.

### Bag Day

We made it through build season! Members made final touches on the robot to get it ready for our competitions. This was the last one; FIRST has decided to eliminate bag day!

IOWA STATE UNIVERSITY  
College of Engineering

JOHN DEERE

2019

DESTINATION:

Presented By BOEING

**Coming Next Time:** Team Neutrino will compete at the Iowa Regional: March 21th-23rd.
