

TEAM NEUTRINO

2025 Week 5 Newsletter

Controls

This week, the controls subteam finished wiring the drivetrain and elevator, tested the elevator, worked on setting up radio, and worked on the new limelight, and AprilTags. Very good progress has been made by the team!

Design

The design subteam finalized climb and scoring, mounters elevator gusset/brackets, mounted the pivot assembly, and worked on electronic mounting on the elevator. They also finished manufacturing all parts for climb and started to work on more scorer parts.

Scouting

Preparing for the upcoming competitions, the scouting subteam has been working on developing software that will be used to track and record the robots of other competing teams. This will be a huge part of future matches, so far they are almost done with the first design and will soon get to user testing.

FLL Blastoff!

This week, the outreach team made the flyer for our FLL summer camp, FLL Blastoff. Advertising updated an email to FLL coaches, brainstormed advertising ideas, and updated advertising presentation. The curriculum team updated presentations for during the camp. Logistics finished the intern application and created a SignUp Genius for interviews, and the budget was also created.
