

TEAM NEUTRINO

2025 Week 7 Newsletter

Bumpers

After finishing all of the mechanical aspects, the final touch for our robot was making the bumpers! Students worked on making the bumpers easily replaceable during competitions, as the bumper color will change between matches depending on what side they are on.

4-H Gala

Senior team member Meabh Hennessy attended a 4-H Gala on February 21st along with team captains Sarah and Anika. There they showcased last season's 2024 robot Valkyrie, and Meabh accepted the Iowa 4-H Foundation Contributing Youth award for her efforts with Team Neutrino. Congrats to Meabh!

Frozen Fiesta

Team Neutrino attended a scrimmage at West Valley High School called Frozen Fiesta. There, they were able to test this year's robot on a full field. The awards subteam also hosted an Impact Exchange on presentations and Q&A sections, reaching 5 different teams.

Robot Reveal

On Sunday, February 23rd we finished our build season with a splash! There, we invited members of the community to come see our 2025 robot Leviathan in action. During this event, we announced our Woodie Flowers mentor award nominee: Moriah Zimmerman. We also announced student nominees for the Dean's List award: Chetas A and Sarah Y.
