Monsanto Check Presentation

Our team was awarded a grant from the Monsanto Fund this year, and so they came to Hoover Hall to present us with the check. Thanks, Monsanto!

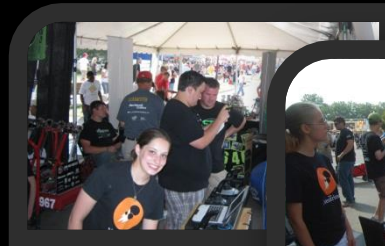

SCI's Family Night

The Science Center of Iowa had a robotics themed family night this month. Our team, along with FRC Team #4646 ASAP from Des Moines and FTC Team #5126, InDEnProCom, from Ankeny were there to show our robots and excite kids about the STEM fields.

Ericson Public Library Demo

Our team also went to the Ericson Public Library in Boone to give a presentation on FRC and demonstrate our robot.

Iowa State Fair STEM Day

The STEM advisory council had their first ever STEM day at the fair this year. FIRST was well represented in all four levels, and there were a total of seven robots there! There were about 100,000 people at the fair that day, and so this was by far our largest event this summer.

Coming Next Month: We will be recruiting new members for our team and visiting Quality Manufacturing to thank them for their support.
