## Newsletter Robot Unveiling

### Drumroll Please...

On Sunday January 23 from 6:30-8:30 pm at Howe Hall on the ISU Campus, Team Neutrino revealed our robot to the public. Families, Friends, alumni, and the general public were in attendance. They got to meet the team, watch our unveiling video with pictures of us in the shop working on the robot, and seeing the robot explained and demonstrated. Thank you to all who came. Please wish us luck at the Greater Kansas City Regional (March 13-15), and the Minnesota North Star Regional (March 27-29)!

**Visit us online:** Stay updated during our regionals by going to [www.teamneutrino.org](http://www.teamneutrino.org).
