

TEAM NEUTRINO

July-August 2021 Newsletter

Outreach Events

Team Neutrino is excited to continue our return to in-person outreach with the 2021 Iowa State Fair, Summer Learning Day, and 4th of July Parade! We had a blast while interacting with the community and showing the new recruits what team spirit is all about— from leading storytime at the Summer Learning Day to teaching circuitry at the Iowa State Fair.

Full STEAM Ahead - Channel 12

In partnership with Channel 12 and the Ames Public Library, Team Neutrino began production on our first ever original television series, *Full STEAM Ahead*. Airing in the fall, FSA showcases engaging science, technology, engineering, art, and math opportunities in Story County— with over 14 locations and 12 special guests!

Welcoming Varsity Car Wash

Team Neutrino recently welcomed Varsity Car Wash, a new supporter for the 2022 season, to the Neutrino family! We toured their state-of-the-art facility, spoke about our program, and had a great time getting to know our new supporters.

Preparing for EMCC

This month, we began preparing for our first in-person competition since February of 2020! EMCC, a one-day competition in Minnesota, will give us the opportunity to prepare for the 2022 season, teach new members about the competition process, and connect with other teams in-person!
